# Easy, fast multi-protocol print servers for growing and changing LANs.

These new NETPrint servers from Digital Products directly connect your printers to your network and provide shared concurrent printing to users of multiple protocols. Each model has high performance hardware and plenty of memory to ensure reliable, fast printing. NETPrint fully supports PCONSOLE and encrypted passwords, and NETPrint includes Windows-based management and diagnostic software.If a file server goes down, NETPrint automatically reattaches itself.

NETPrint/50 supports printing to one parallel printer by NetWare IPX/SPX and TCP/IP UNIX users. It's the easiest, lowest cost way to connect a parallel printer directly to your Ethernet 10BaseT Novell Netware or Banyan VINES network. It installs in just three steps.

NETPrint/100 provides transparent access to two printers by multiple protocols. Both printers can be active simultaneously. Installation is so easy, the manual is on the bottom of the unit. Intelligent Filters automatically handle ASCII to PostScript or PCL printing. AppleTalk support provides high performance access to any parallel PostScript printer with complete LaserWriter emulation.

NETPrint/200 supports printing by NetWare and AppleTalk or TCP/IP UNIX users to 4 printers. The ultimate direct connect print server reduces support problems. NSDOCTOR utility provides centralized management and diagnostics. Intelligent Queues automatically select the correct printer for any UNIX print job.

Now it's easy to connect an HP printer to an Ethernet or Token Ring network. The JETXPrint/100 internal print server turns any HP LaserJet 4, 4Si or other MIO printer into a multi-protocol printer for NetWare, VINES, UNIX-TCP/IP, and AppleTalk networks

Features/Benefits

- Reduces printer needs by sharing printers among NetWare, UNIX, and AppleTalk users.
- Eliminates installation problems. Prints a status sheet on start-up to ensure proper installation.
- Supports multiple protocols with transparent access to one, two, or four networked printers.

DESCRIPTION	ORDER NO.	PRICE EACH
NETPRINT/50	NE	$XXXX.XX
NETPRINT/100 NETWARE	NE	$XXXX.XX
NETPRINT/200 NETWARE	NE	$XXXX.XX
JETXPRINT/100 NETWARE	NE	$XXXX.XX
JETXPRINT/100 VINES	NE	$XXXX.XX
JETXPRINT/104 VINES	NE	$XXXX.XX

EFA Info Express Ethernet Adapters— outstanding quality at a low price.

NEW! PRODUCTS

VESA or PSI Ethernet adapters

Take advantage of the increased bandwidth of your high-speed local bus with these adapters that support both 10Base2 and 10BaseT connections for maximum flexibility, and is fully auto-configuring.

PCMCIA Ethernet adapter

EFA's family of PCMCIA Ethernet Adapters offers a low cost, highly reliable connection of notebook computers to Ethernet networks, and are fully Novell tested and certified.

16-Bit Ethernet adapters

Fully NE2000 compatible, the S16 series of network interface cards support a multitude of high and low level IRQ settings for maximum configuration flexibility, and is available with a variety of connector options.

COMPATIBILITY

All Adapters:
- Novell Server ODI Driver 4.0x
- Novell Server ODI Driver 3.1x
- MS LanManager OS/2 NDIS 2.01
- Packet Drivers
- Windows NT and Windows for Workgroups 3.1x

VESA & 16-Bit:
- Novell ODI Workstation Driver 4.0x
- Novell ODI Workstation Driver 3.1x
- LanManager DOS NDIS 2.01

Features/Benefits

- Novell Certified.
- Direct 24-hour manufacturer support—dial 1-800-800-4EFA
- ISO 9001 certification
- FCC approved
- Lifetime guarantee from manufacturer
